Features & Benefits

The **RAP® Flash / CarDAQ-M® Combo Kits** were designed to help you perform J2534 programming without the hassles and concerns of various PC requirements, purchasing, and learning how to use OE applications that you're only going to use once in a while. **Drew Technologies owns the RAP® Flash Kit**, making it possible for us to offer you substantial savings through our **Pay-Per-Flash** pricing! With this kind of flexibility, you can decide when it makes more sense to utilize our **RAP® Flash** service or to do the programming yourself with our **CarDAQ-M®**, complete with OE Diagnostics.

Do-It-For-Me with **RAP®**

RAP® Flash helps you focus on your core competencies, increase your bottom line, and improve your customer's satisfaction by getting the job done and keeping the job in your shop. In the expanding world of required ECU programming/reprogramming for new part installations and replacements, **RAP® Flash** is your solution. It's easy to use:

Plug-in the kit,

After you've finished your electronic part replacement or repair, it's time to finish the job with **RAP® Flash**. Everything you need is packed in an easy to use, all-in-one kit. There's no need to purchase additional tools, OEM subscriptions, or even have the expertise to get the job done.

Give us a call,

After you've set up the kit, call our toll-free number to get started and connect with one of our world renowned, ASE Certified, RAP Support experts.

We flash the car!

Our RAP Support experts will do the required J2534 programming so you don't have to. Once the job is done, just pack the RAP kit back up for next time. You only pay for each service and success is guaranteed!

Do-It-Yourself with **CARDAQ-M®**

CarDAQ-M® is your reprogrammable solution designed to keep up with the latest technology as J2534 continues to grow. In addition to the J2534-1 and J2534-2 module, Mega CAN and Mega K-Line expansion modules are also available. **CarDAQ-M®** features easy, Plug-n-Play field-upgradeable modules, allowing you to add new modules when you need to.

Complete vehicle repair[‡]

- Emission-related module programming for ALL vehicle makes
- Body control module programming for many vehicle makes
- OEM diagnostics for BMW, GM, Honda/Acura, Jaguar/Land Rover, Toyota, Volkswagen/Audi, and Volvo
- Use with your shop's PC (cannot be used with **RAP® Flash Kit**)
- Vehicle security professionals/locksmiths using the NASTF secure data release model

Become an expert with unrivaled support

- Free **J2534 Toolbox** application with video and help tools
- Free online software updates
- Toll-Free Technical phone and email support
